Muhanad Abdalhamed MuhamedAlHassan Ahmed

Dot NET Developer & Graphic Designer

Goal

My goal is to make every effort to reach the highest positions and levels by using my skills and energy in my work and achieving the position I aspire to

EXPERIENCE

- **Senior Software Developer & Systems Analyst**

Masarat Wa Tashyeed – Saudi Arabia

July 2025 – June 2026

Worked on software development and systems analysis using ASP.NET Core and C#, designing APIs and developing solutions with Angular and SQL Server. Applied Clean Architecture, CQRS, MediatR, and AutoMapper in application development.

- **IT Department Manager**

Anas Bin Farih Al-Anzi Company – Saudi Arabia

January 2024 – May 2024

Responsible for managing the website of Ramoosh Abayas Store, handling both paid and unpaid marketing, designing advertisements, posters, official documents, and presentations. Additionally, I created and managed the store's social media accounts and provided technical support for the company.

- **Web Developer / Mobile App Coordinator / Graphic Designer / Technical Support**

Thimar Al-Khoboub Trading Company – Saudi Arabia

July 2023 – January 2024

Developed the website for Selinar Markets, managed the Selinar app, designed advertisements, posters, and business cards, and provided technical support for the company.

- **Technical Infrastructure Administrator**

Mohammed Essa Al-Habib Metal Products Company – Saudi Arabia

March 2022 – June 2023

Responsible for introducing, implementing, and developing the Odoo system, training employees on its usage, setting up the company's technical infrastructure including networks, hardware, and software, and providing technical support for the company.

- **Dot NET Developer / Graphic Designer / Technical Support/Maintenance Engineer**

Emirates College for Science and Technology – Sudan

March 2017 – June 2021

Worked in the college's laboratories on computer maintenance and programming as a computer lab supervisor, ensuring all devices function optimally with the latest updates and patches. Additionally, worked as a .NET Developer in the IT department and as a Graphic Designer for posters, advertisements, official documents, student files, magazines, and newspapers for the college.

EDUCATION

- **Information Technology**

Emirates College of Science and Technology – Sudan

2017

I completed my studies at the Emirates College of Science and Technology
